This is good news... Mike said Chara treatment worked well, "we hope to see the same for next year" also that the lake looked good, Procella COR the /diquat mixture is making a huge difference in the volume of weeds in the lake. The Chara treatment worked also well per Mike "Certainly did not cut back on the weed treatment," Mike advised that the extra nutrients is likely coming from fertilizer on people's lawns It would be in the resident's best interest to have a natural lake front barrier.

### Financial Update

Todd advised that he had the Spicer Group put an ARC GIS online, this shows the assessments. In hopes it will be updated yearly. Shawn asked if could have a read access to this. There will be a Public Hearing in 2023 this will be scheduled at the Douglass Township Hall Spring 2023

### Other Business

Shawn addressed the board regarding the blue/green algae in the lake. This can produce toxins it can be harmful to animals. Ken said, Sand or having a natural buffer would help near the sea wall. To deter the nutrients from the grass getting into the lake and causing the upward trend of algae forming more and more along the shoreline.
