

# HOW TO RECYCLE AT A COMPACTOR SITE

## STEP 1

Use the drive or parking lot to pull up to the compactor site.

## STEP 2

Separate any cardboard from single-stream recyclables (plastic, paper, glass, etc.).

## STEP 3

Using the yellow slots, put your recyclables into the properly labeled bin.

That's all! You have successfully recycled at a compactor site!

## STEP 4

Compactors are automatic. Please **DO NOT** push any buttons unless it is an emergency.
