Public Comment

Paul asked about the possibility of dredging. Mike responded that dredging is very expensive and requires permits, testing and disposal to complete. Paul noted that there's a lot of muck and build-up. Todd S added that the dredging process wouldn't go through the LIB. Greg suggested that Paul try a weed roller.

Treatment Plan

Mike provided a summary of the season's treatment. Total season cost was \$22,197.00 for treatments. The next treatment will be held around May 15, 2024. Mike advised that a new invasive species called Hydrilla was found in Michigan but has not yet made its way here. It can be treated with ProCellacore. Greg asked if there are ever follow-up surveys and treatments. Mike responded that he follows up after treatments. Greg asked if they could possibly get a schedule for the whole season at a time. Todd S said no because there are too many factors that can change a schedule. Todd M asked why lily pads are treated so late in the season. Todd S said fall treatments are best for lily pads. Todd M pointed out a problem area for a native weed that is affecting navigation. Mike gave ideas on possible treatment options. Todd M asked for a quote on cost.

Financial Update

Todd S provided a financial update to the Board, including a current balance of \$64,012.81.

Fish Stocking

Todd M told the Board that fish stocking is scheduled for October 10, at 8 am for a total cost of \$2,500.00. Todd S told Todd M to have the invoice sent to the office.

Mike advised that the RLS contract is up this year and provided an updated contract to the Board.

A motion was made by Todd S and seconded by Tom to accept the RLS contract for \$6,500.00 per year for a period of 5 years. Motion carried.
